## CHECKOUT REMINDERS

We hope you are enjoying your stay at MSU! When ready to depart, place your conference card and key(s) back in the envelope in which it was given, and give it to your Team Leader. The Team Leader will put all of the conference cards and room key envelopes back in the large envelope and turn it in to the Service Center Representative. Please refer to the newsletter you received with your check-in packet on what you should do with your room linen. Safe travels!

## CREATIVE MINDS AND SPORTSMANSHIP SHINE AT AWARDS CEREMONY

BY BRENDAN DWYER

The Odyssey of the Mind rocked the Breslin Center one last time for 2019 last night at the World Finals Awards Ceremony. Alive with lights, raucous with cheers and absolute rocket-fuel energy and enthusiasm, the fever-pitch crowd burst at the seams as it awaited results from this year's competition.

Odyssey Director Sammy Micklus addressed the crowd to open the night. "So many creative minds and so much amazing work was done this week," said Micklus. "What a fantastic competition - every team here should be very proud." As Micklus continued and thanked Michigan State, the Greater Lansing CVB and all the OotM Moms, Dads, officials and volunteers, the roof almost blew off the Breslin Center when he asked, "What team here thinks they have the best coach?!" It was clear all the teams have great admiration and appreciation for their coaches and the many sacrifices they make for their teams.

Next Odyssey Founder Dr. Sam Micklus was greeted with a standing ovation by the capacity crowd. "Not only was this the biggest World Finals ever, I think it has also been the best," said Dr. Sam. "You can all go back to your hometown feeling proud that you competed with honor and excellence!"

Award presenters Dr. Jim Mourey and Katarina Micklus took the stage to get award presentations kicked off by announcing Honorable Mentions for 6th, 5th, and 4th places in each division for all the problems. They also presented this year's OMER's Awards to the team from Collingwood, New Jersey in Division II for awesome teamwork in the face of crisis, and to the Indian Trails Bus

Drivers who served the event this week with efficiency and friendliness.

Excitement continued as 3rd and 2nd place recipients from all problem divisions received their coveted team trophies and medals. Six teams were then presented with the Ranatra Fusca Creativity Award for displaying one-of-a-kind unique and memorable creativity in their respective categories. Finally, the moment everyone was waiting for arrived when the presenters shared the first-place,

Dr. Jim Mourey and Katarina Micklus had the crowd on the edge of their seats as they awarded all the winning teams to roars of great approval from the warm and receptive crowd.

2019 Odyssey World Champions for each division of "Omer to the Rescue, Again", "Hide in Plain Sight", "Leonardo's Workshop", "Structure Toss" and "Opposites Distract". While only some teams can walk away from the Awards Ceremony in first place in their division, every team now has earned the distinguished honor of competing at the highest level of Odyssey of the Mind. No matter where teams placed this week of competition, the team memories made, and the new friendships ignited will last a lifetime. Congratulations to every Odyssey team and Greater Lansing Michigan will be ready to welcome you back in 2021!

- 3rd & Giant Leap Winner:** Quest Alumni

## RANATRA FUSCA AWARDS

### Fateledora, Seocho-gu, South Korea

Hide in Plain Sight, Division, III Spontaneous

This team designed a gravity-defying solution supported between two tables. They used toothpicks, a spoon, and other items to make a cutting device to cut a pool noodle in half. They used the pool noodle halves, amazingly supported by only one side of each table, and added materials to the middle for higher score. Showing amazing teamwork, this team talked to each other, had amazing synergy, were like "one brain" while they focused on solving the problem. All four judges were amazed at this unique solution.

### Corbin HS, Corbin, KY

Leonardo's Workshop, Division III

This team's use of materials was as creative and varied as the DaVinci works they re-created. The judges were blown away by both the variety and execution of nontraditional materials used in six remastered paintings, fashioned from soap shavings, curls, paste, and slivers, as well as zip ties and used chewing gum. From a distance, the artworks appeared to be painted, but on closer inspection the judges were amazed to discover a plethora of interesting materials used in unexpected ways to create a beautifully coherent set.

### Geneseo Central School, Le Roy, NY

Leonardo's Workshop, Division III

There are many ways to create a set, prop, or a costume change, but this team brought it to a completely new level. It used math to solve a Classics problem. This team transformed an unassuming 2x4 wooden frame into a perspective sculpture, hanging several hundred wax cylinders from the top of this cube. The placement of each cylinder within the 3-D plane was carefully calculated and mapped to transform the original structure of DaVinci's Vitruvian Man into a bee when the frame was rotated 90 degrees.

### Verna, Kristen, Carolyn from Manhattan Beach Middle School, Manhattan Beach, SO CAL Structure Toss Division II, Spontaneous

This team used many materials in a creative way while trying to solve our WACKY problem. One of the most creative solutions

was a device that applied principals of physics which amazed even the judges. They spontaneously created a "fishing- pole" type device that had a rubber band pendulum that held and released a ball at the correct time. This unique and very risky solution awed the judges, even though they had seen many other creative solutions over the three days.

### Belmont Ridge Middle School, Leesberg, VA Opposites Distract, Division II

This team's use of cardboard in its engineering of the representation of the Sneaky Character was an innovative use of the material. The character was a broken and then functioning mantel clock made of connecting cardboard gears. The Mantel Clock wanted to stop time for everyone because she could no longer go forward in time. When she was outed as the Sneaky Character, the Past and the Future came together to replace her missing cardboard gear. They also presented her with new ideas in the form of cardboard light bulbs with metal bases that when connected caused her metal hat made from a decorated tent to light up and spin at increasing speeds with each new idea.

### Delaware Valley HS, Milford, PA Opposites Distract, Division III

This team showed exceptional creativity by taking the judges behind-the-scenes and into its creative process during a skit-within-a-skit unfolding in real time that brought the audience on the roller coaster that all Odyssey teams experience. An interconnected cube system that was reconfigured into a variety of shapes served as the blank canvas upon which the team's intricate scenery would come to life. As the skit began, two members drew freehand simplistic line drawings on two different settings. As the scenery changed, the lines flawlessly connected to create an entirely new illustration, rendering the judges speechless. The evolution of ideas seen through the ever-changing scenery mirrored the progression of an Odyssey team working towards a solution. This team exemplified the very essence of Odyssey through creativity, risk-taking and ingenuity.

## OMER'S AWARD

### Bus drivers from Indian Trails

The Indian Trails bus drivers went above and beyond to make Odyssey teams and supporters feel at home while on MSU campus. Their cheerful willingness to help others showed true Odyssey spirit. They made kids from all over the world feel welcome in a new place and helped ease the stress of travel and competing. They weren't just drivers with passengers; they became tour guides, cheerleaders, and friends. Thank you Indian Trails!

### Collingswood Rec Navy, Collingswood, NJ

Omer to the Rescue, Again, Division: II

This team arrived at its venue an hour before its performance to find that its vehicle was missing. Someone must have thrown it away! After the initial panic, the team decided to treat the dilemma as a spontaneous problem. Using teamwork and items donated to them by other teams that finished competing, team members incorporated their newly created vehicle into a humorous, entertaining, engaging solution. The Staging Area Judges were impressed by their positive can-do attitude throughout the day, a true demonstration of the Odyssey problem-solving spirit.

# INTERNATIONAL FESTIVAL BUILDS BRIDGES BY AMY PIPER

Daniel Ortiz, Bruno Sanchez, and Coaches of Mexico

**D**aniel Ortiz and Bruno Sanchez, from Monterrey, Mexico, visited the Switzerland booth and scored some Swiss chocolate bars and some pins. Bruno advised, “My Dad says Swiss chocolate is the best.” They brought pins and ranch dolls to represent Mexico in a trade. One passerby was anxious to see if they would trade their sombreros, but they were holding out for a Hong Kong jacket.

Nathaniel Smith Buys Pins at the German Booth

Hong Kong Team from Chinese YMCA College

Checking in with the Hong Kong booth, those jackets were a hot commodity. The team from Chinese YMCA College had 50 Hong Kong jackets, and they sold out in five minutes. The team also sold postcards and small fan cut-outs where the team would write your name in Chinese.

team from Shanghai, China are first-time visitors to the United States too. Before heading to East Lansing, they had an opportunity to take an architectural boat tour in Chicago.

Justin Sossou is a judge from Togo. They have been coming to WF since 2009. While they couldn't bring a team this year, they are selling items from Togo to raise funds to bring a team next year.

At the German booth, Sophie Lehmann, a ninth grader, from Leonardo Da Vinci Campus in Nauen, Germany said, “I was at World Finals in 2017, and I'm having an even better time this year. It was more exciting this time because we had more experience, and there were so many moments to be happy.” Before WF, her team visited Chicago's Navy Pier and Millennium Park. On their way home, they plan to visit New York City.

Miracle Step-by-Step Shining Team from Shanghai, China

Nathaniel Smith purchased two pins at the German booth. One for himself and one for his friend who is part German.

At the India booth, Divyansh Verma from Delhi says the hottest selling item at his booth is the henna, which the parents and coaches are using to make henna tattoos for their customers. It's his first time in the United States, and he feels good about it. After Odyssey, he's going to Disney World and wants to explore Orlando.

The Miracle Step-by-Step Shining

## CCI OFFERS ITS THANKS FOR ANOTHER GREAT YEAR!

**W**hile the journey over the past few days has been great for everyone, it has been even greater over the course of the year. Take a moment to look back at how much you have accomplished – as an individual and as a team. You can see much growth in knowledge and skills of all sorts of things – from building and creating, to thinking and innovating, to speaking in public and sharing your opinions effectively and kindly.

your creative thoughts and be confident in your skills – they've already brought you to a world stage.

From this growth you will continue to do great things. Each year we leave confident in our future as we see such skilled thinkers entering our future workforce ready to solve any problems that arise. You are now part of a global community – from Switzerland, India, Poland, China, Qatar, and beyond. While you come from different cultures and backgrounds, you have Odyssey of the Mind in common. This commonality bridges continents!

Of course, all of this isn't possible without our dedicated volunteers, coaches, and parents. Your work facilitates our future innovators. We are also proud of all the alumni that have come back as adults to volunteer. How wonderful to see generations of OMerS! We know you will help keep the program growing so we can continue with our mission.

NASA deserves recognition as well, for continuing to offer fun discussions and challenges for all at its Science Talks and Classroom Activities.

As Dr. Sam told our graduates, “Keep thinking!” Sometimes new and creative ideas scare others, but persevere in expressing

Creative Competitions, Inc. is honored to be part of such a wonderful global family. Thank you all! To be able to witness such talented students and inspiring coaches is amazing. Best wishes to everyone – and here's hoping you have another year filled with creativity and fun! Be sure to check out next year's problems!

Stay in touch: [fb.com/OdysseyHQ](https://fb.com/OdysseyHQ)
